Reading that Feeds the Soul

Imagine Heaven is a great book that gives us insights into what life after this life will be like. The author John Burke has interviewed and researched many people who have had near death experiences (NDE's). These people have shared what they experienced during that brief period when they were dead and now could share what they experienced after they were revived.

The author is also a pastor and connects these NDE's to what the scriptures tell us about the life to come. This book will bring great comfort to those who have had loved ones die and will give great hope to those still living. This book excites me in what I will one day experience when my time here is accomplished.
